- **2.2.** Adult Content Prohibited.
 - **2.2.1.** Adult-oriented sites demand special system, network, and bandwidth requirements. Netstyle Designs does not accommodate those extraordinarily large requirements in its reseller hosting plans. Therefore you may not use Netstyle Designs services for adult-oriented and pornography sites. This includes sites that may include sexual content, or links to adult content elsewhere.
 - **2.2.2.** Where allowed by applicable law, Netstyle Designs does not prohibit you from posting a static Web page that meets all of the following criteria:

 - the page does not display any sexually explicit content and does not link to any Web page or site displaying any sexually explicit content; and
 - the page does not require a user to log in with a username or password to access any of the Web site's content.

- **2.2.3.** In some jurisdictions, even the notice and advertisement of adult-oriented services may be illegal. It is your sole responsibility to learn the laws that govern what you are and are not allowed to post on your Web site. As part of your agreement with Netstyle Designs, you must comply with all such applicable laws.

However, Netstyle Designs cannot and does not advise you or make any recommendations to you about the existence of any such laws in a particular jurisdiction. Nor does Netstyle Designs advise you about how to comply with any such laws. Furthermore, laws may vary throughout Australia and all over the world, so you should contact your legal advisor for more information and specific recommendations concerning the kinds of online materials that are legal in your region.

- **2.2.4.** If you use Netstyle Designs service to publish any content that any applicable law deems "harmful," "inappropriate," or "unsuitable" for minors (persons under 18 years of age), then you must provide appropriate protection to prevent minors from accessing that content. Such protection is your sole responsibility because Netstyle Designs does not censor the content of your Web sites and pages.
- **2.2.5.** If you have a reseller account with Netstyle Designs, you may not resell our hosting services to any clients or customers that sell adult content.
- **2.2.6.** You may not use Netstyle Designs services to sell or solicit sales for any of the following items, products or services because they are or may be illegal in one or more jurisdictions where Netstyle Designs services are offered, or where they can be viewed through Netstyle Designs services:
 - Online pornography or adult content for which a viewer must subscribe to access it,
 - Adult content-related products or services (including X-rated videos, pictures, etc. especially of individuals under 18 years of age), and
 - Obscene materials, as defined by law.

If we find any of your sites (or any of the sites of your customers, if you have a reseller account) to be selling any of the prohibited products or services, the offending accounts shall be subject to immediate account termination.

2.2.7. Exception to the above clause 2.2 may be given in some circumstances. These circumstances may include where adult health information may be made available on website for the legitimate benefit of adult members of the community.
